

Installing the Golf365 Pro App

Once the iPad has been setup, the Golf365 Pro App can be installed on your device.

1. Open Safari and go to <https://install.golfnowone.com/>
2. Tap Install to begin the App download

A popup will display, tap Install. Nothing will happen but if you close the browser and go to the home page you should see a Golf365 Pro icon being installed.

3. Once installed, open the iPad Settings
4. Tap General – VPN & Device Management. Tap on Trust 'TGC, Inc'.
5. Staying in your iPad Settings, scroll down to the list of Apps, tap on 'Golf365 Pro' and update 'Provider' to be UK.
